Lioness tells the story of a group of female Army support soldiers who were part of the first program in American history to send women into direct ground combat. Without the same training as their male counterparts but with a commitment to serve as needed, these young women fought in some of the bloodiest counter-insurgency battles of the Iraq War and returned home as part of this country's first generation of female combat veterans. *Lioness* makes public, for the first time, their hidden history. For more information on this 82-minute long thought-provoking documentary directed by Meg McLagan and Daria Sommers, visit: www.lionessthefilm.com.
